

LendForGood Public Impact Loan Information for Danish Care Foods

24 May 2023

Loan Summary

Loan name

Innovative wafer snacks to overcome malnutrition in young children in Cambodia

Loan description

The loan will help to supply ready-to-use therapeutic food (RUTF) products for over 1000 children in three provinces in Cambodia. It will also enable Danish Care Foods to increase the company's capability in preparation for the supply of larger orders in the future. Over 10% of young Cambodian children suffer from moderate and severe acute malnutrition. Nutrix, as an innovative therapeutic food, marks an important step towards reaching the Cambodian government's goal to treat at least 25,000 children with severe acute malnutrition per year.

Loan amount (in US dollars)

\$20,000

Loan period

6 months

Loan interest rate

10% per annum, simple interest

Loan Detail

Provide a short summary on the background and context of the loan, and how this fits with the mission of the borrower

Danish Care Foods (DCF) specialises in the production of therapeutic and supplementary foods that helps to create a positive impact in nutrition for the consumer. Their fish-based ready-to-use-therapeutic food (RUTF) is utilised by the Royal Government of Cambodia and major INGOs to treat children with severe acute malnutrition.

This loan helps provide bridging capital to keep the smooth flow of productions and distribution of their products to satisfy existing orders, and preparation to scale as they await major orders to distribute RUTFs across 15 provinces in Cambodia.

DCF is the only social enterprise in Cambodia harnessing innovation for their RUTFs, and the loan helps them to continue creating a positive impact to Cambodian society and generate significant impact at scale.

Describe the positive social and/or environmental impact the loan will create, and how it will be measured/assessed

The loan will help to supply the needed RUTF products for the projects to support 1000 children in three provinces. It will also enable DCF to increase the company's capability in preparation for the supply of larger orders in the future. Over 10% of young Cambodian children suffer from moderate and severe acute malnutrition. Nutrix, as an innovative therapeutic food, marks an important step towards reaching the Cambodian government's goal to treat at least 25,000 children with severe acute malnutrition per year.
